I am trying my best to work extra harder to do best in calss and everything to make success so that I should make you happy and you should not feel like you are wasting your money on me.

May the Almighty Father our Lord make an equation for us, so that you should contiue paying school fees for me and others.

Your's

Ritta Lungu.

Dear Jauma,

I thank you for paying fees for me. My first term results are really as they were sent to you by Father Sijo. They are not of good grades though above 69 but it is so because I was writing exams in grief due to the lost of my Father. During my Maneb exams I am planning to sit for only 8 subjects and when I graduate want to be a nurse or a secondary school teacher.

I promise to work extra hard to pass with good grades during my end of the term results and Maneb.

Your daughter, Chikondi Gondwe.

Dear Oscar and Elena,

I know that you are being disappointed with the results of my first term examinations. I have not done well in my exams because I had an eye problem. My eye developed some wounds inside it that made me not read during the study time but as now I am fine and I promise to you that this term I will do better because the problem had been rectified. I went to the hospital to get treatment so the doctor assisted me.

I am very happy if you are fine and what are you doing with your life. I wish you all the best in this new year and may you have a favors from the Lord and be blessed abundantly for what you are doing to me and my fellow students.

Nice to meet you next time,

Your student, saliwe Zakala.

Dear Oscar,

I am writing this letter to you to thank you for assisting me by solving a problem of school fees payment.

My mother have been sleeping with hunger now and again for the sake of me, her son. Instead of taking money to food programme she was giving me for the school fees. Hence hunger in the house, but now a days she eats with full of joy under her heart because she know that she is free from school fees.

It is not a joke to choose me among all students here at padre Pio School to be your loved student. I did not know that I would find a future like this, but with the grace of God I have been chosen.

Sir, I your student I am facing lot of problems here at school and at home too, some of them are mattress, here at school I have a bed but no mattress, blankets, clothes shoes school bags writing materials.

Oscar, if you can afford to do these things for me I can be happy and my mother can also be jovial. Thank God the creator, may God bless you and greet your Elena, dad and all relatives.

Dear Anna,

I would like to give thanks and congratulations for what you are doing to me. Some of my friends are not going to school. Because of school fees but I have found a chance of learning. That my parents can not manage. So I could have to improve in my performance so that during MSCE I could have to pass with flying colours and I will improve. And this term I will pull up my socks so that I could be on position 3 or 4.

Thank you
